my_script.py

What is your name?

Running Python Scripts

```
sredmond$ python3 my_script.py
<output from the script>

sredmond$ python3 hello.py
What is your name? Sam
Hey Sam, I'm Python!

sredmond$
```

Supply the filename of the Python script to run after the `python3` command

Python Scripts

Supplying the `-i` option (for 'interactive') will enter the interactive interpreter after running the python script
