

for in reversed 1 10 2

print

,

#9,753,1,

Reverse Iteration

```
for i in reversed(range(1, 10, 2)):  
    print(i, end=', ')
```

```
# =>
```

```
# 9, 7, 5, 3, 1,
```

To loop over a sequence in reverse,
first specify the sequence in a forward direction
and then call the `reversed()` function.
