

=> True

"one" 1 "two" 2 "three" 3

=> True

Create a Dictionary

```
empty = {}
```

```
type(empty)      # => dict
```

```
empty == dict()  # => True
```

```
a = dict(one=1, two=2, three=3)
```

```
b = {"one": 1, "two": 2, "three": 3}
```

```
a == b  # => True
```
