

Web Applications

Expose your program to the World Wide Web!

Helpful ecosystems: Flask or Django (... or Twisted)

Clients ask for web pages and info; servers provide them

Quick overview of HTML/CSS/JS ([W3Schools](#) for tutorials)

HTML: What content is on the web page?

CSS: How is the web page's content styled?

JS: How does the web page dynamically interact with...?

Example: Flask Microblog

Oodles of credit to Miguel Grinberg's Flask Mega-Tutorial (through Part IV)
