

'world' #Unicode by default

Strings

No char in Python!

Both ' and " create string literals

```
greeting = 'Hello'
```

```
group = "wørld" # Unicode by default
```

```
greeting + ' ' + group + '!' # => 'Hello wørld!'
```

Indexing

`s = 'Arthur'`

Index	Character
0	A
1	r
2	t
3	h
4	u
5	r
6
