

#Build it or break it over [1,2,3]

iter 1 2 3

next

#

=>

1

next ⇒ # ⇒ 2

next ⇒ # ⇒ 3

next#raisestopIterationerror

# Iterable

```
# Build an iterator over [1,2,3]
```

```
it = iter([1,2,3])
```

```
next(it)    # => 1
```

```
next(it)    # => 2
```

```
next(it)    # => 3
```

```
next(it)    # raises StopIteration error
```

For Loops use Iterators
