

#Is a user-submitted word a part of the word?

i

f

i

f

i

f

print 'Ho ho ho! You entered a palindromic word!'

else

```
print 'You did not enter a valid name'
```

Palindrome?

Spelled the same
backwards and forwards

```
# Is a user-submitted word a palindrome?
```

```
word = input("Please enter a word: ")
```

```
reversed_word = word[::-1]
```

← Pause: How did this work again?

```
if word == reversed_word:
```

```
    print("Hooray! You entered a palindrome")
```

```
else:
```

```
    print("You did not enter a palindrome")
```
